

(President’s Message, continued from Page 1

There are many opportunities for safety professionals to serve the ASSE. One such opportunity involves the position of Triad Chapter liaison for the Council on Governmental & Professional Affairs (CoPA). We are seeking an interested individual to bring legislative updates provided by National and Region VI to our members and to help our chapter discover ways to become involved in safety and health initiatives on the local, state and national level. If you are interested in being part of this important chapter function, please notify me or one of the members of the Executive Committee.

There is only so much I can cover in the space provided for the monthly President’s letter. There are many more things happening in our chapter and so much information available to our members. I urge you to visit our web site regularly at www.triadasse.org. Our web site editors, Drake Evans and Javonn Peaks, with support from National, have done an outstanding job of providing a wealth of up-to-date content in a most appealing format. Additionally, you will receive your September chapter newsletter very shortly. Our newsletter editor, Elesa Hurley, has gathered the most important current information and placed it in a concise, easy to read publication.

My message to you this month is to stay informed, become an active member of your chapter, and give us feedback on how we can continue to provide value to our members. I look forward to seeing you at our upcoming events.

Sincerely,

Ron Graves
